

KANSAS HIV/STD SURVEILLANCE UPDATE

Kansas Department of Health and Environment, Bureau of Epidemiology and Disease Prevention

The Kansas AIDS Ribbon was designed by the Kansas Capitol Chapter of the American Red Cross to raise hope and awareness in the state of Kansas and support the fight against HIV/AIDS.

VOL. 2 #2

July, 2001

“HIV negative injection drug users had a 45% positive rate for hepatitis C in a blinded study by the State Laboratory.”

See page three for Story “Hepatitis C Testing”

Our Mission:

The HIV/STD section works to promote public health and enhance the quality of life for Kansas residents by the prevention, intervention, and treatment of HIV and other STDs. The mission will be accomplished through policy and resource development, clinical data collection and analysis, research, education, prevention programs, disease detection, and the provision of treatment and clinical care services.
